

“Let’s Dive Deeper into Wellness”

March 22, 2024 - 8:30am-4:00pm

Burlington Convention Centre
Queen Victoria/Rosewood Hall
1120 Burloak Drive, Burlington

Educators working in relationship with children, their families and caregivers have a critical role supporting the development of infant and early years mental health and well-being. Join us as we dive deeper into the definition of mental health and its core concepts and enhance our knowledge of mental health as a state of wellness that can be fostered through relationships and pedagogical practice.

Where Science Meets Practice

Dr. Jean Clinton

**Lorrie McGee Baird,
RECE**

Keynote segments by Dr. Jean Clinton and Lorrie McGee Baird move through the science of social-emotional development to exploring core concepts of mental health and well-being. Through deep discussion and hands-on experiences, participants will make connections between the core concepts for mental health, and the daily practice and pedagogical approach of educators.

Registration Details:

Registration is available at no cost through funding provided by Halton Region, Children's Services.

Participants may include Consultants, Pedagogical Leaders, Diversity, Equity and Inclusion Leads, Directors and Supervisors, Educators and Early Years Professionals and Home Visitors who work in Licensed Centre-Based Child Care, Licensed Home Child Care and EarlyON Child and Family Centres in Halton.

Registration is limited to one individual from each licensed child care head office.

Register by March 15 at:
