

Big Ideas for the Care of Tiny Humans

 [NOW AVAILABLE AS LEARNING MODULES](#)

The series focuses on selected core concepts essential to infant and early mental health, that can be fostered through in pedagogical practice in early childhood education. Supplementary materials include protocols for reflecting in Communities of Practice.

This resource is for:

- ✓ Early Childhood Educators
- ✓ Those who work with infants, very young children and their families
- ✓ Facilitators of communities of practice

Featuring **Dr. Jean Clinton** and **Lorrie McGee R.E.C.E.**, the learning modules move through the science of social-emotional development to exploring core concepts of mental health and well-being.

**Register and Explore the Modules at
Infant and Early Mental Health Promotion | SickKids**

Coming Soon: Additional modules including French language resources.
